Q and A

Wednesday, August 29, 2018
1:23 PM

Q1 : In case there is no error in a task, the value of 'Error Line Number' will be -
-2
None
0
1

Ans : 0

Q2 : Which of the following types of reports are generated by the report designer?
Task Failuer
Workflow Run
Workflow Failure
Task Run

Ans : Workflow Run, Task Run

Q3 : Counter variable always starts from which of the following digits
-2
1
-1
0
Ans : 1

Q4 : At the event of an error, the 'Set Task Status' Option under Error Handling command allows to set the current task as
Pass or Fail
Pass or Fail or Aborted
Pass or Fail or timed Out
Pss or Aborted

Ans : Pass or Fail

Q5 : Which of the fllowing variables are available in task editor?
Array
String
List
integer

Ans : Array, List

Q6 : Which of the following loops are offered by the AAE Client?

Database Dataset
All
Excel Dataset
list Variables

Ans : All

Q7 : Which of the following type of variable is not supported by Metabots?
List Type
Array Type
Password type
Value Type

Ans : list Type

Q8 : A task file contains which of the following?
Task commands, task properties, task schedule, task Triggers
Task commands, task properties Only
Task commands and task schedules only
Task commands only

Ans : Task commands, task properties Only

Q9 : Which of the following is the default mode of credential Vault?
Express
none
database
Manual

Ans : Express

Q10 : Which of the following client is accessible to a user with Admin role/rights?
BotRunner Client
None
BotCreator Client
Both

Ans : None

Q11 : In WebCR, what does the number of active users reflect in Dashboard?
Total Number of BotCreators and BotRunners
Number of BotRunners
Total Number of user accounts created on WebCR
Number of BotCreators

Ans : Total Number of user accounts created on WebCR

Q12 : Whcih of the following options are true when the user connects to more than one excel file during task execution?
None
Yes, it is supported by defining different session name for each excel file.
No, It is not supported
Yes, it is default support

Ans : Yes, it is supported by defining different session name for each excel file.

Q13 : Which of the following options allows to identify the location of a control room repository?
AAE Client Tools
Control Room Settings
System Variable Manager
Task Properties

Ans : Control Room Settings

Q14 : While editing a task, the screen shots are not appearing under visualize tab. What could be the possible reason?
None
Task was modified in the task Editor
The Pop-up blocker in the IE browser was disabled
The task was created with Secure Recording Feature Enabled.

Ans : The task was created with Secure Recording Feature Enabled.

Q15 : Which of the following modes of information capture is supported by Smart recorder?
Common Mode
None
Object Mode
Image Mode

Ans : Object Mode and Image Mode

ArrayRows
ArrayColumns
ArraySize
ArrayElements

Ans : ArrayRows, ArrayColumns

Q17 : Which of the following methods can a developer use to debug a task using task editor :
Using message boxes only
Directly using function keys
Enable Debugging then function keys
By looking at the log files only

Ans : Enable Debugging then function keys

Q18 : While working on a WebCR, the Dashboard component displays the number of registered clients. What does this indicate?
Total number of BotCreators and BotRunners
Number of BotCreators
Number of BotRunners
Total number of user accounts created on teh WebCR

Ans : Total number of BotCreators and BotRunners

Q19 : Which of the following are possible in error handling?
All
Log Data into a file
Run Task
Take Snapshot

Ans : All

Q20 : Which of the following variables does workflow Support?
Arrays
none
list
String

Ans : None

Q21 : Which of the following file/files cannot be scheduled by the schedule manager in AA client?
VB Script Files
Executable Files
Workflow Files
Metabot Files

Ans : Executable Files, Metabot Files

Q22 : Which among the following should be checked prior to ensuring that the task performance is devoid of any errors in Web recorder?
The Zoom Factor in IE browser should be 125%
the IE 11 PLugin is installed and enabled
The zoom factor in IE browser should be 100%
Flash plug-in is installed

Ans : the IE 11 PLugin is installed and enabled
The zoom factor in IE browser should be 100%

[Second Paper : Ans: Flash plugin installed, zoom should be 100% and ie11 plugin is installed and enabled]

Q23 : Which of the following is 'most' preferable to extract an html table?
Object Cloning
OCR
All
Web Recorder

Ans : Web Recorder

Q24 : A task has been modified in local client. Which of the clients features can be used to compare this task with the one uploaded on WebCR?

Ans : Manage -> Repository

Q25 : which of the following can be attached to a mail being sent via error handling?
Snapshot and Error Log
Data Log and Snapshot

Snapshot and Variable
Error Log and Variables

Ans : Snapshot and Variable

Q26 : Which of the following email based triggers does AAE support out of box?
User information Updated
User Activated/deactivated
All
Task Execution Status

As : All

Q27 : which of the following recorder is most preferable to automate with if the application is web based?
Object Cloning
Web Recorder/Managed Web Controls
OCR
Managed Windows Controls

Ans : Web Recorder/Managed Web Controls

Q28 : Which of the following WebCR options allows to view the list of all client machines along with their status in read-Only form?
Security
Clients
User Management
Respository Manager

Ans : Clients

Q29 : $Filedata Column$ variable allows us to read column wise information from the following file types
csv
txt
doc
pdf

ans : csv and txt

Q30 : A bot is created with specific properties, scheduling or triggers and uploaded to Web CR. Which of the following gets carried forward with the bot?
Schedule
None
Properties
Triggers

Ans : Properties

VisualSVN
GIT
Tortoise SVN

Miccrosoft Team Foundation Server

ans : VisualSVN

Q32 : Which of the following recorders works on the coordinates of a screen?
Object Cloning
Smart Recorder
Web Recorder
Screen Recorder

Ans : Screen Recorder

Q33 : Which of the following format of System Variables can be changed?
Month
Time
Date
Year

Ans : Date

Q34 : Which of the following is an extension of a metabot file?
.atmx
.mbot
.metabot
None

Ans : .mbot

Q35 : Which of the following helps in searching for a web control based on the index number of control stored while recording a web page?
Control ID
Attributes
Control Index
Index

Ans : Control Index

Q36 : Which of the following are the available recorders in automation anywhere?
Smart Recorder
Command Recorder
None
Web Recorder

Ans : Smart Recorder, Web Recorder

Q37 : Which of the following are valid loop commands?
Each row in an excel dataset
All
Each Folder in folder
Each cell in a Array

Ans : Each row in an excel dataset, Each Folder in folder

Q38 : Which of the following are valid error handling actions?
Stop after next error
Continue
None
Continue until next error

Ans : Continue

Q39 : Whcih of the following is a highly not recommended to use if the application is local and offers full support of objects for automation?
Object Recorder
Screen Recorder
Object Cloning
Managed Windows Control

Ans : Screen Recorder

Q40 : whcih of the following can be used to download a file?

Web Recorder
App Integration
Pattern Data
None

Ans: Web recorder

Q41 : Which of the following provides various options for error handling when an error occurs

Take Snapshot
Log Data Into file
Stop the task and disable all next schedule
Variable Assignment

Ans : Variable assignment

Q42 : Which of the following can be attached to a mail being sent via error handling?
Error Log
Variable
Data Log
Snapshot

Ans : Variable and Snapshot

Screen and Standard Recorders are same.

Q43 : If a customer does not want AAE to capture credit card while using object cloning across all of their clients, what are the options available to a developer?

Ans: Enable secure recording in control room

Q 43: whcih of the following ROI setting can be modified?

Hourly Rate
Run time
Debug Time
Currency

Ans : Hourly Rate
